

FINGERLAKES FANTASY FOOTBALL LEAGUE – OVERVIEW

When you login the first time, the **Draft Time** screen is what you will see – It gives an overview of our rules and what you will need to do in order to select your first team. To start, you can either select the **Manage Roster** link at the top or the **Select Your Roster** button at the bottom. Before doing so, please take a moment to read through our information, particularly to familiarize yourself with the notes on **Trade** and **Early Submission**.

Draft Time!

Building Your Roster With The Configurator™

On the next page, you will build your team using drop-down menus to select players. Start by selecting the nfl team for your target player. This will enable the individual player dropdown. Repeat for all 8 positions. Once a player is chosen, that player's current value will be added and your cash balance will be adjusted. You can change your selections as many times as you like before the cut-off time for the current week (except if you have chosen pre-sunday players - see below).

NOTE: If there is a problem with your roster, a specific error message will appear below the selection table in red. You will not be allowed to submit your roster until you have addressed the error.

When you have finished, submit your roster using the "Submit Roster" button at the bottom of the form. NOTE: Even after you have submitted your roster you can edit it as long as the cut-off time for the current week has not yet arrived.

Multiple Rosters (new for 2005)

Tabs at the top of The Configurator allow you to keep 2 versions of your roster. These are called "First Roster" and "Second Roster". Only one is considered "active" - noted on the tab that corresponds to that roster. The roster version marked "active" is the one that will be submitted at the cut-off time for a given week. It doesn't matter whether the active roster is "First Roster" or "Second Roster". Pressing "Submit Roster" automatically activates the roster version currently being worked on and deactivates the other version. It is not necessary to the multiple roster feature; you can simply stick with one tab week to week and ignore the other. If you choose to use the multiple roster feature for comparison, make sure to activate the correct version prior to the submission deadline (This roster version will show up when you click the "current roster" link).

Player Values

To browse player values during roster selection, use the "Values" button at the bottom of the form. In the resulting pop-up window, you will be able to sort players by name, value, or team. Additionally, there is a search feature designed to help you find a player for a given position whose value falls in a set range.

- If a player you have selected is involved in a Pre-Sunday game for a given week, that player will show up as grayed out as soon as his game starts and you will not be able to deselect or trade him until salary caps for the next week are uploaded.

Have fun and good luck!

MANAGING YOUR ROSTER – The Configurator™

The Configurator™ is a tool that we've developed for online team selection that offers each coach a pull-down environment, which is fully searchable by team, value, name or position. Based on your login, your team's **salary cap** and available **trades** are clearly listed.

New in 2005, for comparison and evaluation, each coach has the ability to generate 2 rosters. Please bear in mind that ultimately **only one roster may be submitted!**

MANAGING YOUR ROSTER – The Configurator™

Start your roster selection by **picking a team**, which gives you **all available players** at that position for that team – then choose your player. When you do so, his value, his team's weekly opponent, game start time and trade status automatically fill in. You may pick your roster's positions in any order.

The screenshot displays the 'Fingerlakes Fantasy Football League' website interface. At the top, there is a navigation menu with links for HOME, THE GAME, RECORDS, SCORING, FORUM, and SIGN UP. Below the menu, a user is welcomed as 'billw171' with links for Current Roster, Manage Roster, Weekly Reports, Account, Help, and Log Out. The main content area is titled 'First Roster (Inactive)' and 'Second Roster (Inactive)'. It features a table for roster selection with the following columns: Team, Position, Player, Value, Opp, Game Time, and Trades. The first row shows a QB selected from the 'IND' team, with the player 'Manning, P: IND' and a value of 3080. The opponent is 'at DEN' and the game time is 'Sat 8:00 PM'. Below the table, summary statistics are shown: TOTAL 3080, Cash Bal 6920, Salary Cap 10000, Bonus Pts: 10, and Trade Total: 0. At the bottom, there are buttons for 'Help', 'Values', 'Reset', and 'Submit Roster'. A red arrow points to the 'IND' team dropdown, and a blue arrow points to the 'Cash Bal' value.

With each selection a a running total is calculated giving you your **available cash balance** at all times. This is also true of your **available trades** when relevant (not applicable in weeks 1 and 7 as well as our playoffs, weeks 14-17).

MANAGING YOUR ROSTER – The Configurator™

When you've selected 8 positions without exceeding your budget or available trades, the **Submit Roster** button will become active.

WEEKLY REPORTS

The FLFFL produces each week a number of reports – Most reports are provided in a pdf format with the balance being online. Of particular interest, the **Hot Sheet** details the choices at each position which have yielded the highest points in a given week as well as year-to-date.

The screenshot shows the website for 'THE Fingerlakes FANTASY FOOTBALL LEAGUE'. The header features the league name in a stylized font and a graphic of a wooden bowling pin with blue bowling balls. Below the header is a navigation bar with links: HOME, THE GAME, RECORDS, SCORING, FORUM, and SIGN UP. The main content area is titled 'Weekly Reports' and includes a welcome message for user 'billw171' and a list of navigation links: Current Roster, Manage Roster, Weekly Reports, Account, Help, and Log Out. A 'TIMING' notice states that reports are available by Wednesday evening. The page lists various reports with their dates and times, including League News, Hot Sheet, NFL Schedule, Last Man - Rules, Last Man - Results, Player Popularity - Week 17, Rosters - Week 17, Prelim Report, FLFFL Team points, FLFFL Standings, FLFFL Results, FLFFL Schedule, FLFFL Rosters, FLFFL Player Values, FLFFL Prizes 2004, and FLFFL League Personnel. A 'Bowl Info' section lists Finger Bowl, Toilet Bowl, and Septic Bowl. An Adobe Reader logo is also visible.

After every given week of play, all results are listed here – The first report to update is typically the **Prelim** as we strive to have it ready prior to Monday Night Football. The final report, **Results**, is due by Wednesday evening of each week.

Come week 13, when our playoffs roll around, all **Bowl Info** is found here. Most coaches will also want to take a look at our **Prize List** too. And if you ever want to know who's doing what league-wise, our **Personnel** are posted here as well.

ROSTER VIEWING

No later than kick-off of the night game on Sunday – most weeks much sooner – all rosters are available for public viewing, including most importantly, those of your opponent or key division rivals. They are listed on the left hand side and become viewable when clicked.

The screenshot shows the website interface for the Fingerlakes Fantasy Football League. At the top, there is a navigation menu with links for HOME, THE GAME, TUTORIAL, RECORDS, SCORING, FORUM, FAQ, and SIGN UP. Below the navigation, a user is logged in as 'billw171' and has access to links for Current Roster, Manage Roster, Weekly Reports, Account, Help, and Log Out. The main content area is titled 'Rosters - Preseason, week 3'. On the left, there is a list of teams: BARRAGANQUISH SPECIALS, FLAMING THUMBSTACKS, and ROCHESTER RAIDERS. A red arrow points to the 'FLAMING THUMBSTACKS' link. The main roster table is titled 'FLAMING THUMBSTACKS - Preseason, week 3' and contains the following data:

Position	Name	Team	Value
QB	Losman, JP: BUF	BUF	1000
RB	Dunn, W: ATL	ATL	1530
